List of Java Exceptions

All public exceptions and errors in the Java API, grouped by package.

✓: Checked exception <version>: Since version

Package java.lang

- Throwable '
 - Exception
 - CloneNotSupportedException
 - InterruptedException '
 - ReflectiveOperationException
 - ClassNotFoundException
 - IllegalAccessException '
 - InstantiationException
 - NoSuchFieldException *
 - NoSuchMethodException
 - RuntimeException
 - ArithmeticException
 - ArrayStoreException
 - ClassCastException
 - EnumConstantNotPresentException
 - IllegalArgumentException
 - IllegalThreadStateException
 - NumberFormatException
 - IllegalCallerException ⁹
 - IllegalMonitorStateException
 - IllegalStateException
 - IndexOutOfBoundsException
 - ArrayIndexOutOfBoundsException

- StringIndexOutOfBoundsException
- LayerInstantiationException ⁹
- NegativeArraySizeException
- NullPointerException
- SecurityException
- TypeNotPresentException
- UnsupportedOperationException

Error

- AssertionError
- LinkageError
 - BootstrapMethodError
 - ClassCircularityError
 - ClassFormatError
 - UnsupportedClassVersionError
 - ExceptionInInitializerError
 - IncompatibleClassChangeError
 - AbstractMethodError
 - IllegalAccessError
 - InstantiationError
 - NoSuchFieldError
 - NoSuchMethodError
 - NoClassDefFoundError
 - UnsatisfiedLinkError
 - VerifyError
- ThreadDeath
- VirtualMachineError
 - InternalError
 - OutOfMemoryError
 - StackOverflowError
 - UnknownError

Package java.util

- ServiceConfigurationError
- InvalidPropertiesFormatException
- ConcurrentModificationException
- EmptyStackException
- IllegalFormatException
 - DuplicateFormatFlagsException
 - FormatFlagsConversionMismatchException
 - IllegalFormatCodePointException
 - IllegalFormatConversionException
 - IllegalFormatFlagsException
 - IllegalFormatPrecisionException
 - IllegalFormatWidthException
 - MissingFormatArgumentException
 - MissingFormatWidthException
 - UnknownFormatConversionException
 - UnknownFormatFlagsException
- FormatterClosedException
- IllformedLocaleException
- MissingResourceException
- NoSuchElementException
 - InputMismatchException
- TooManyListenersException

Package java.io

- IOError
- IOException '
 - ∘ CharConversionException ✓
 - ∘ EOFException ✓

- FileNotFoundException
- ∘ InterruptedI0Exception ✓
- ObjectStreamException
 - InvalidClassException
 - InvalidObjectException ✓
 - NotActiveException ✓
 - NotSerializableException ✓
 - OptionalDataException
 - StreamCorruptedException
 - WriteAbortedException ✓
- ∘ SyncFailedException ✓
- UTFDataFormatException ✓
- UnsupportedEncodingException
- UncheckedIOException 1.8

Package java.awt

- AWTError
- AWTException
- FontFormatException '
- IllegalComponentStateException
- HeadlessException

Package java.awt.color

- CMMException
- ProfileDataException

Package java.awt.datatransfer

- MimeTypeParseException
- UnsupportedFlavorException *

Package java.awt.dnd

• InvalidDnDOperationException

Package java.awt.geom

- NoninvertibleTransformException <
- IllegalPathStateException

Package java.awt.image

- ImagingOpException
- RasterFormatException

Package java.awt.print

- PrinterException <
 - \circ PrinterAbortException ullet
 - ∘ PrinterIOException ✓

Package java.beans

- IntrospectionException '
- PropertyVetoException '

Package java.lang.annotation

- AnnotationFormatError
- AnnotationTypeMismatchException
- IncompleteAnnotationException

Package java.lang.instrument

- IllegalClassFormatException '
- UnmodifiableModuleException ⁹
- UnmodifiableClassException '

Package java.lang.invoke

- LambdaConversionException <, 1.8
- WrongMethodTypeException
- StringConcatException <,9

Package java.lang.module

- FindException ⁹
- InvalidModuleDescriptorException ⁹
- ResolutionException ⁹

Package java.lang.reflect

- GenericSignatureFormatError
- InvocationTargetException '
- InaccessibleObjectException ⁹
- $\bullet \ {\tt MalformedParameterizedTypeException}$
- MalformedParametersException ^{1.8}
- UndeclaredThrowableException

Package java.net

- HttpRetryException
- SocketTimeoutException
- MalformedURLException
- ProtocolException '
- SocketException
 - ∘ BindException ✓
 - ∘ ConnectException ✓
 - ∘ NoRouteToHostException ✓
 - ∘ PortUnreachableException ✓
- UnknownHostException '
- UnknownServiceException '
- URISyntaxException *

Package java.net.http

- HttpTimeoutException ✓, 11
 - HttpConnectTimeoutException ✓, 11
- WebSocketHandshakeException ✓, 11

Package java.nio

- BufferOverflowException
- BufferUnderflowException
- InvalidMarkException
- ReadOnlyBufferException

Package java.nio.channels

• ClosedChannelException '

- AsynchronousCloseException
 - ClosedByInterruptException
- FileLockInterruptionException
- InterruptedByTimeoutException
- IllegalChannelGroupException
- IllegalSelectorException
- UnresolvedAddressException
- UnsupportedAddressTypeException
- AcceptPendingException
- AlreadyBoundException
- AlreadyConnectedException
- CancelledKeyException
- ClosedSelectorException
- ConnectionPendingException
- IllegalBlockingModeException
- NoConnectionPendingException
- NonReadableChannelException
- NonWritableChannelException
- NotYetBoundException
- NotYetConnectedException
- OverlappingFileLockException
- ReadPendingException
- ShutdownChannelGroupException
- WritePendingException

Package java.nio.charset

- CoderMalfunctionError
- CharacterCodingException
 - MalformedInputException

- UnmappableCharacterException
- IllegalCharsetNameException
- UnsupportedCharsetException

Package java.nio.file

- FileSystemException
 - AccessDeniedException
 - AtomicMoveNotSupportedException
 - DirectoryNotEmptyException
 - ∘ FileAlreadyExistsException ✓
 - ∘ FileSystemLoopException ✓
 - NoSuchFileException
 - ∘ NotDirectoryException ✓
 - NotLinkException
- DirectoryIteratorException
- FileSystemAlreadyExistsException
- FileSystemNotFoundException
- InvalidPathException
- ProviderMismatchException
- ClosedDirectoryStreamException
- ClosedFileSystemException
- ClosedWatchServiceException
- ProviderNotFoundException
- ReadOnlyFileSystemException

Package java.nio.file.attribute

• UserPrincipalNotFoundException '

Package java.rmi

- AlreadyBoundException *
- RemoteException '
 - AccessException
 - ∘ ConnectException ✓
 - ∘ ConnectIOException ✓
 - ∘ MarshalException ✓
 - NoSuchObjectException
 - ServerError *
 - ∘ ServerException ✓
 - ∘ ServerRuntimeException ✓
 - ∘ StubNotFoundException ✓
 - UnexpectedException
 - UnknownHostException ✓
 - ∘ UnmarshalException ✓
- NotBoundException '
- RMISecurityException

Package java.rmi.activation

- ActivationException *
 - ∘ UnknownGroupException ✓
 - ∘ UnknownObjectException ✓
- ActivateFailedException

Package java.rmi.server

- ServerCloneException '
- ExportException '
 - SocketSecurityException

- SkeletonMismatchException
- SkeletonNotFoundException
- ServerNotActiveException

Package java.security

- GeneralSecurityException '
 - ∘ DigestException ✓
 - ∘ InvalidAlgorithmParameterException ✓
 - ∘ KeyException ✓
 - InvalidKeyException '
 - KeyManagementException
 - ∘ KeyStoreException ✓
 - NoSuchAlgorithmException
 - ∘ NoSuchProviderException ✓
 - ∘ SignatureException ✓
 - ∘ UnrecoverableEntryException ✓
 - UnrecoverableKeyException
- PrivilegedActionException '
- InvalidParameterException
- ProviderException
- AccessControlException

Package java.security.acl

- AclNotFoundException
- LastOwnerException '
- NotOwnerException

Package java.security.cert

- CertificateException <
 - CertificateEncodingException
 - CertificateExpiredException
 - CertificateNotYetValidException
 - CertificateParsingException
 - CertificateRevokedException
- CertPathBuilderException
- CertPathValidatorException ✓
- CertStoreException
- CRLException '

Package java.security.spec

- InvalidKeySpecException
- InvalidParameterSpecException

Package java.sql

- SQLException '
 - ∘ BatchUpdateException ✓
 - ∘ SQLClientInfoException ✓
 - ∘ SQLNonTransientException ✓
 - SQLDataException
 - SQLFeatureNotSupportedException
 - SQLIntegrityConstraintViolationException
 - SQLInvalidAuthorizationSpecException
 - SQLNonTransientConnectionException *
 - SQLSyntaxErrorException
 - \circ SQLRecoverableException ullet
 - SQLTransientException

- SQLTimeoutException *
- SQLTransactionRollbackException
- SQLTransientConnectionException
- ∘ SQLWarning ✓
 - DataTruncation '

Package java.text

• ParseException '

Package java.time

• DateTimeException ^{1.8}

Package java.time.format

• DateTimeParseException ^{1.8}

Package java.time.temporal

• UnsupportedTemporalTypeException ^{1.8}

Package java.time.zone

• ZoneRulesException ^{1.8}

Package java.util.concurrent

- BrokenBarrierException '
- ExecutionException '

- CompletionException 1.8
- CancellationException
- RejectedExecutionException
- TimeoutException '

Package java.util.jar

• JarException '

Package java.util.prefs

- BackingStoreException '
- InvalidPreferencesFormatException <

Package java.util.regex

• PatternSyntaxException

Package java.util.zip

- ZipError
- DataFormatException '
- ZipException '

Package com.sun.jdi

- AbsentInformationException <
- ClassNotLoadedException
- IncompatibleThreadStateException <
- InvalidTypeException

- InvocationException
- ClassNotPreparedException
- InconsistentDebugInfoException
- InternalException
- InvalidCodeIndexException
- InvalidLineNumberException
- InvalidModuleException ⁹
- InvalidStackFrameException
- NativeMethodException
- ObjectCollectedException
- VMCannotBeModifiedException
- VMDisconnectedException
- VMMismatchException
- VMOutOfMemoryException

Package com.sun.jdi.connect

- IllegalConnectorArgumentsException '
- TransportTimeoutException <
- VMStartException *

Package com.sun.jdi.connect.spi

• ClosedConnectionException *

Package com.sun.jdi.request

- DuplicateRequestException
- InvalidRequestStateException

Package com.sun.nio.sctp

- InvalidStreamException
- IllegalReceiveException
- IllegalUnbindException

Package com.sun.tools.attach

- AgentInitializationException '
- AgentLoadException '
- AttachNotSupportedException <
- AttachOperationFailedException

Package javax.annotation.processing

• FilerException '

Package javax.crypto

- BadPaddingException '
 - ∘ AEADBadTagException ✓
- ExemptionMechanismException '
- IllegalBlockSizeException
- NoSuchPaddingException *
- ShortBufferException '

Package javax.imageio

• IIOException '

Package javax.imageio.metadata

• IIOInvalidTreeException '

Package javax.lang.model

• UnknownEntityException

Package javax.lang.model.element

- UnknownAnnotationValueException
- UnknownDirectiveException ⁹
- UnknownElementException

Package javax.lang.model.type

- MirroredTypesException
 - $\circ \ {\tt MirroredTypeException}$
- UnknownTypeException

Package javax.management

- BadAttributeValueExpException 🗸
- BadBinaryOpValueExpException <
- BadStringOperationException ${}^{\hspace{-1pt} \hspace{-1pt} \hspace{-1pt} \hspace{-1pt} \hspace{-1pt} \hspace{-1pt}}$
- InvalidApplicationException '
- JMException '
 - ∘ MBeanException ✓
 - MBeanRegistrationException *
 - ∘ OperationsException ✓
 - AttributeNotFoundException

- InstanceAlreadyExistsException *
- InstanceNotFoundException ✓
- IntrospectionException
- InvalidAttributeValueException
- ListenerNotFoundException
- MalformedObjectNameException
- NotCompliantMBeanException
- ServiceNotFoundException *
- ∘ ReflectionException ✓
- JMRuntimeException
 - RuntimeErrorException
 - RuntimeMBeanException
 - RuntimeOperationsException

Package javax.management.modelmbean

- InvalidTargetObjectTypeException <
- XMLParseException

Package javax.management.monitor

• MonitorSettingException

Package javax.management.openmbean

- OpenDataException '
- InvalidKeyException
- InvalidOpenTypeException
- KeyAlreadyExistsException

Package javax.management.relation

- RelationException '
 - ∘ InvalidRelationIdException ✓
 - InvalidRelationServiceException
 - InvalidRelationTypeException
 - ∘ InvalidRoleInfoException ✓
 - ∘ InvalidRoleValueException ✓
 - ∘ RelationNotFoundException ✓
 - \circ RelationServiceNotRegisteredException ullet
 - ∘ RelationTypeNotFoundException ✓
 - ∘ RoleInfoNotFoundException ✓
 - ∘ RoleNotFoundException ✓

Package javax.management.remote

- JMXProviderException *
- JMXServerErrorException *

Package javax.naming

- NamingException *
 - ∘ CannotProceedException ✓
 - ∘ CommunicationException ✓
 - \circ ConfigurationException ullet
 - ∘ ContextNotEmptyException ✓
 - ∘ InsufficientResourcesException ✓
 - ∘ InterruptedNamingException ✓
 - ∘ InvalidNameException ✓
 - \circ LimitExceededException ullet
 - SizeLimitExceededException *

- TimeLimitExceededException
- LinkException
 - LinkLoopException '
 - MalformedLinkException
- NameAlreadyBoundException *
- NameNotFoundException
- NamingSecurityException
 - AuthenticationException
 - AuthenticationNotSupportedException
 - NoPermissionException ✓
- NoInitialContextException
- NotContextException
- OperationNotSupportedException
- PartialResultException
- ∘ ReferralException ✓
- ServiceUnavailableException

Package javax.naming.directory

- AttributeInUseException
- AttributeModificationException
- InvalidAttributeIdentifierException '
- InvalidAttributesException '
- InvalidAttributeValueException <
- InvalidSearchControlsException <
- InvalidSearchFilterException <
- NoSuchAttributeException *
- SchemaViolationException

Package javax.naming.ldap

• LdapReferralException '

Package javax.net.ssl

- SSLException '
 - SSLHandshakeException
 - ∘ SSLKeyException ✓
 - ∘ SSLPeerUnverifiedException ✓
 - ∘ SSLProtocolException ✓

Package javax.print

• PrintException '

Package javax.print.attribute

• UnmodifiableSetException

Package javax.script

• ScriptException '

Package javax.security.auth

- DestroyFailedException *
- RefreshFailedException *

Package javax.security.auth.callback

UnsupportedCallbackException *

Package javax.security.auth.login

- LoginException '
 - ∘ AccountException ✓
 - AccountExpiredException
 - AccountLockedException
 - AccountNotFoundException
 - ∘ CredentialException ✓
 - CredentialExpiredException
 - CredentialNotFoundException
 - FailedLoginException

Package javax.security.cert

- CertificateException *
 - \circ CertificateEncodingException ullet
 - \circ CertificateExpiredException \checkmark
 - ∘ CertificateNotYetValidException ✓
 - ∘ CertificateParsingException ✓

Package javax.security.sasl

- SaslException '
 - \circ AuthenticationException ullet

Package javax.smartcardio

- CardException
 - ∘ CardNotPresentException ✓

Package javax.sound.midi

- InvalidMidiDataException *
- MidiUnavailableException '

Package javax.sound.sampled

- LineUnavailableException '
- UnsupportedAudioFileException '

Package javax.sql.rowset

RowSetWarning *

Package javax.sql.rowset.serial

• SerialException '

Package javax.sql.rowset.spi

- SyncFactoryException '
- SyncProviderException *

Package javax.swing

• UnsupportedLookAndFeelException <

Package javax.swing.text

- BadLocationException <
- ChangedCharSetException <

Package javax.swing.tree

• ExpandVetoException *

Package javax.swing.undo

- CannotRedoException
- CannotUndoException

Package javax.transaction.xa

• XAException '

Package javax.xml.catalog

• CatalogException ⁹

Package javax.xml.crypto

- KeySelectorException '
- MarshalException '
- NoSuchMechanismException
- URIReferenceException '

Package javax.xml.crypto.dsig

- TransformException '
- XMLSignatureException '

Package javax.xml.datatype

• DatatypeConfigurationException '

Package javax.xml.parsers

- FactoryConfigurationError
- ParserConfigurationException '

Package javax.xml.stream

- FactoryConfigurationError
- XMLStreamException '

Package javax.xml.transform

- TransformerFactoryConfigurationError
- TransformerException '
 - ∘ TransformerConfigurationException ✓

Package javax.xml.validation

• SchemaFactoryConfigurationError ^{1.8}

Package javax.xml.xpath

- XPathException '
 - \circ XPathExpressionException ullet
 - XPathFunctionException
 - $\circ \ \ \textbf{XPathFactoryConfigurationException} \ \ {}^{\checkmark}$

Package jdk.dynalink

• NoSuchDynamicMethodException

Package jdk.jshell

- JShellException *,9
 - ∘ EvalException ✓,9
 - ∘ UnresolvedReferenceException ✓,9

Package jdk.jshell.spi

- ExecutionControlExecutionControlException <
 - ∘ ExecutionControlClassInstallException ✓
 - ∘ ExecutionControlEngineTerminationException ✓
 - ExecutionControlInternalException
 - ExecutionControlNotImplementedException
 - ExecutionControlRunException
 - ExecutionControlResolutionException
 - ExecutionControlStoppedException
 - ExecutionControlUserException
- SPIResolutionException ⁹

Package jdk.nashorn.api.scripting

• NashornException ^{1.8u40}

Package jdk.nashorn.api.tree

• UnknownTreeException ⁹

Package jdk.security.jarsigner

• JarSignerException ⁹

Package netscape.javascript

• JSException

Package org.ietf.jgss

• GSSException '

Package org.w3c.dom

• DOMException

Package org.w3c.dom.events

• EventException

Package org.w3c.dom.ls

• LSException

Package org.w3c.dom.ranges

• RangeException 9, DOM Level 2

Package org.w3c.dom.xpath

• XPathException

Package org.xml.sax

- SAXException '
 - ∘ SAXNotRecognizedException ✓
 - ∘ SAXNotSupportedException ✓
 - ∘ SAXParseException ✓
